

Easily manage how you process and flex the financial impact of transportation of your goods.

If you are responsible for transport processes in your business, you may recognize these challenges:

"Our transport cost of goods sold have a big impact on the business." "How can we manage the mixture of free and chargeable transport costs in our sales processes?"

"We need to manage free of charge delivery to our customers in a more efficient way."

Why choose Prodware to support your logistics process needs in Dynamics 365 Finance & Operations?

As a Microsoft partner, Prodware has developed and implemented Dynamics 365 and AX projects across Europe.

Our experienced R&D team work closely with our clients to develop additional functionalities that suit their logistics and finance needs.

The Transport Cost accelerator helps by boosting standard Microsoft Dynamics 365 Finance and Operations functionality:

- Centralizes transport cost management and pricing schedules (by quantity, weight, pallet, unit etc.)
- Simulates price of transportation of goods in order to support decision-making
- Provides an easier way to recover transport costs from the customer
- Includes rules by customer to manage free transport costs
- Includes transport costs in the sales order by item or with a sale line charge
