

purchase and sales optimization accelerator

Improve how your company deals with sales and purchase orders more cost-effectively.

Microsoft | Dynamics 365

If you are responsible for managing multiple warehouses and sales order processes in your organization, you will recognize these issues:

“Our company needs to improve our inventory management. We need to have a readiness from warehouses to assist each other to resolve out-of-stock situations.”

“We would like to have better visibility on quantities ordered to obtain a better price from suppliers.”

“We have to optimize planned purchase orders to align with conditional trade agreements by quantity.”

Why choose Prodware to support your business process needs in Microsoft Dynamics 365 Finance and Operations?

As a Microsoft partner, Prodware has developed and implemented Dynamics 365 Finance and Operations and AX projects across Europe.

Our experienced R&D team work closely with our clients to develop additional functionalities that optimize sales and inventory processes.

Purchase and Sales Optimization accelerator helps by:

- Optimizing planned purchase orders to align with conditional trade agreements by quantity
- Creates a logistical process in sales order entry so deliveries are organized between warehouses or direct from vendor
- Improves sales order deliveries to select the best delivery warehouse

Speak to Prodware about getting your Microsoft Dynamics system fully compliant with your inventory management to better meet customer demands.
