GDPR Analysis
Package

We help you achieve full compliancy on your GDPR compliance project

Microsoft | Dynamics 365

With the new GDPR effecting your projects, you may have those questions:

“How can we be sure we have covered all our obligations under GDPR? Do we have a complete picture of the personal data we process, how it is stored and who has access to it?”

“We’re not exactly sure of what steps to takes in our GDPR compliance project. We need a clear and easy to follow process.”

“Can you help me assess our degree of GDPR compliance? If there are any gaps, can you provide a clear plan of how we achieve full compliance?”

Why Prodware?

- Pioneers in GDPR compliance; benefit with our own experience in making a complex international operation GDPR-compliant
- Leaders in ERP, CRM and cloud infrastructure

The GDPR Analysis Package begins with an analysis phase to identify personal data your organization is processing, plus its storage and access:

- Kick-off session
- Project plan
- Role and task assignment
- Evaluation of one data repository as a model
- Assistance during the rest of the analysis
- Assessment of GDPR readiness
- Compliance action plan

The 3 areas of GDPR compliance

It's easy to consider compliance a purely legal matter, but processes and technology are just as important (maybe more!)

Legal aspects

- Contracts
- Privacy notices
- Binding corporate rules

Processes

- Data acquisition
- Data transfers
- Internal policies

Technology

- Data repositories
- Security measures
- Access control and data minimization
- Monitoring and reporting
