

Streamline finance accounting processes to save time and improve accuracy

If you are responsible for your multi-national organization's accounts team, you will recognize these daily work challenges:

"Our company group needs to provide reporting in the Headquarters' Chart of Accounts as well as each company's local Chart of Accounts reporting."

"Here at the Headquarters, we want to easily map between local and master General Ledger accounts so that we can easily create financial reporting and analysis views, without double-work."

The **Master Chart of Accounts accelerator** for **Microsoft Dynamics 365 Business Central** brings additional automation to your multi-site and multi-country finance management processes, to improve efficiency, accuracy and productivity of your teams; and provide powerful financial overviews for HQ.

Why choose Prodware to support your financial processes with Dynamics 365 Business Central?

As a Microsoft Gold partner, Prodware has developed and implemented many Dynamics 365 Business Central projects across Europe.

Our experienced R&D team work closely with our clients to develop additional functionalities that suit their needs to boost best practice, productivity and agility.

The Master Chart of Accounts accelerator improves standard functionality to allow users to:

- ▶ Create a Master Chart of Accounts
- ▶ Define the mapping between local G/L Accounts and Master G/L Accounts
- ▶ Create financial reports and analysis views based on the Master Chart of Accounts

Contact Prodware to align your Dynamics 365 Business Central system with your daily financial processes to keep your global accounts team productive and keep a global overview of financials.
