OCR connector accelerator

Easily connect third-party OCR technology into your system and leverage the power of P2P automation

If you are responsible for your accounts payable team, you will recognize these daily work challenges:

"We want to automatically import supplier invoices into our Microsoft Dynamics 365 system to save time on processing."

"We use OCR technology to scan our invoices to save overheads on document management and be more sustainable, however there is a lot of work to integrate the data into our finance system."

The **OCR Connector accelerator** for **Microsoft Dynamics 365 Finance and Supply Chain Management** helps your finance team to embed and read vendor invoice documents into your system, feeding the data from OCR technology right within your financial processes.

Why choose Prodware to support your financial processes with Dynamics 365 Finance and Supply Chain Management?

As a Microsoft Gold partner, Prodware has developed and implemented many Dynamics 365 Finance and Operations and AX projects across Europe.

Our experienced R&D team work closely with our supply chain clients to develop additional functionalities that suit their needs to boost best practice, productivity and agility.

The OCR Connector accelerator allows your business to easily connect Dynamics 365 Finance and Supply Chain Management with external OCR tools.

▶ The Connector already works out of the box with leading P2P automation OCR providers Yooz and Rossum

▶ Direct embedded access for document data recognition to improve machine learning

▶ If your business uses other third party OCR tools, the accelerator can be configured easily.

Contact Prodware to align your Dynamics 365 Finance and Operations system with your daily financial processes to keep your accounts team productive, speed up invoice processing and improve accuracy.
